Commissioner Adelstein:

(I am a retired elementary teacher and in the years that I taught I noticed an increase in behavior problems as the children were exposed to violent shows on TV. Some parents never limit their children's TV and it certainly showed in their attitudes toward other people. Parents who were restrictive of TV had children much better behaved and willing to learn. I don't know why it is taking our nation so long to wake up. My prayer is that we will take action before we lose our nation.

Sincerely,

T.E. Huddleston

Dear FCC Chairman Powell and Commissioners,
I am a parent in Minnesota who believes the public airways are used to promote violence and sexual depravity. Our young children are very much being influenced by the lax attitude on the part of the major networks and cable operators. I have purchased a subscription to SKYANGEL and this promotes a healthy world view for my family. Do yourpart to reign in the violent content and unwanted sexual content broadcast on our airways that most poor families cannot always avoid, short of throwing the television out of the home!!

Dear Commissioner, There is no doubt in my mind that watching violent programs on television causes the viewers to act more violently themselves. Children are particularly at risk, but adults are influenced as well. My own children have been kept so busy with school work and activities that they have not been tv watchers and I am so thankful.

I also believe that after watching this kind of programming the viewer becomes desensitized to violence--not discerning--and that's dangerous indeed. You've heard the old GIGO thing: Garbage in, garbage out. Violence in, Violence out. Do we want that? I don't think so!

Sir: As an elementary teacher (now retired) I would like to ask you to remove the violence during family viewing and a bit later. Children come to school and try some of the acts on the playground. It definitely makes an imprint on their thinking. Many parents work and don't take time to monitor the TV watching. Parents should monitor but if they don't those children shouldn't be tramitized when the FCC could work to protect them. Children handle violence in different ways and the impact may not be evident immediately. I ask you to take action and protect the future of our country-our youth.
